Prem Kumar Sah

Ethical Hacker | Pentester | Bug Bounty Hunter | Python/Java/Kotlin Developer.

I am an aspiring Cybersecurity Analyst with a solid foundation in ethical hacking, network security, and penetration testing. Alongside my passion for cybersecurity, I possess a basic understanding of programming languages like Python, Java, and Kotlin. I am currently pursuing a Bachelor's degree in Computer System Engineering at ISMT College, Biratnagar.

PROJECTS

Fake Gmail Signin

Built a fake gmail signin page which basically runs in ESP8266 NODEMCU model. The project is developed on ARDUINO IDE.

<https://github.com/thebinaryghost/fake-gmail-signin.git>

POS Sales System

Developed a Point of Sales system using Java. The system basically calculates the prices and provides the printable bill.

Snake Game

Developed a basic snake game using python and with the help of ChatGpt. Pygame library was used to make the game executable.
